Attainment Bands:

Excellent (100 - 90), Distinction (89 - 80), Merit (79 - 70), Pass (69 - 50), Unsuccessful (≤ 49)

1. Reading Comprehension

People need to be active to be healthy. Our modern lifestyle and all the conveniences we've become used to have made us inactive – and that's dangerous for our health. Sitting around in front of the TV or the computer, riding in the car for even a short trip to the store and using elevators instead of stairs or ramps all contribute to our inactivity. Physical inactivity is as dangerous to our health as smoking!

Scientists say that you should accumulate 60 minutes of physical activity every day to stay healthy or improve your health. The time needed depends on effort – as you progress to moderate activities, you can cut down to thirty minutes, four days a week.

Physical activity doesn't have to be very hard to improve your health. This goal can be reached by building physical activities into your daily routine. Just add in periods of at

least ten minutes each day. After three months of regular physical activity, you

will notice a difference – people often say getting started is the hardest part.

Write "True" for a correct statement and "False" for an incorrect statement (6%)

- a. Smoking is less dangerous than physical inactivity. _____
- b. You do not need more than sixty minutes a day to be fit. _____
- c. Nowadays people are more active than in the past. _____
- d. The time needed for physical activity depends on money. _____
- e. You can improve your health by relaxing and keeping cool. _____
- f. People say that getting into physical activity is not so difficult. _____

Answer the following questions using your own words (9%)

1. Why is physical activity so important for people?

2. How can you include physical activity in your life?

3. Do you play any sports? Give two reasons why you do or why you don't.

2. Write the correct form of the verbs in brackets (10%)
